

## QUIET SESSION OF TOWN COUNCIL

**Financial, Stringency Prevents Undertaking Any New Work—Council to Assist in Taking Care of the Neady.**

The regular meeting of the town council was held in the council chamber last Monday evening. Mayor Holt was in the chair, and the following councillors present: Messrs. Hicks, Lavelle, Ireland and McLaughlin.

The minutes of the last regular meeting were read and adopted.

This meeting was one of the quietest and shortest the council has ever had, as practically no business was transacted or even mentioned.

In the effort the mayor explained that the council had not as yet been able to satisfactorily dispose of its debentures, and as the taxes in arrears were not coming in very rapidly, the council was not in a position at the present time to undertake any new work. Negotiations, however, were under way with different financial institutions, and some promise was given from day to day. He thought in the near future the town would be able to resume its old-time stride of development.

His worship introduced the question of assistance for the needy in town, and said that while the council was not strong financially at present, he felt it the duty of the council to foster any movement which might aid and assist in every possible way in raising the necessary funds. He spoke along the lines suggested editorially in the Review last week, and said the council would be glad to work in conjunction with any organization, thus doing away with any overlapping. He felt it the duty of every citizen to assist as much as possible in this work.

On motion of Councillors Hicks and Lavelle, Councillors Ireland and McLaughlin were appointed to represent the council on any relief committee which might be selected outside of the council.

Council then adjourned.

## THANKSGIVING DAY DATE IS CHANGED

Thanksgiving Day will not be celebrated on Thursday, October 8, as officially announced previously, but the following Monday, October 12. An order-in-council has been passed fixing the date as the 12th. The change was made when the attention of the government was drawn to the wishes of the majority of the people and that Thanksgiving Day has for several years passed on the 12th of Monday. This gives a longer week and allows many more, more particularly the commercial travelers, to spend that day at home. Owing to the pressure of business this practice was overlooked by the government in fixing the date for October 8th, although the mistake has been rectified.

## Captured 150 Barge Loads of Ammunition

A report from Paris says that the railroad toward Berlin and Nancy have been liberated from the retreat of Germans toward the north. The name report says that one hundred and fifty canal barges loaded with ammunition which had been hidden under a covering of coal, have been captured by the French at the river Oise. This discovery explains the German shortage of ammunition.

## GERMAN ARRESTED AT IRVINE AS SPY

Mr. Paul Clemens, a German subject, residing south of Irvine, Alberta, was arrested on Thursday by Staff Sergeant Ash of the R. N. W. M. P. The police claim he was found with maps and documents on this river which they claim him as a German spy. Letters were found on him sent from the German consulate in New York, giving him certain instructions as to the "present war." It was as though dangerous to allow Clemens at large in his country and therefore find he will remain awaiting further developments.

## Another Redcliff Man Goes To Battle

Mr. A. B. Clow, who for some time was Redcliff's town clerk and solicitor, and left for a visit to his old home in Scotland just before war was declared, has enlisted with the British forces, and is probably now on his way to the battle field.

This information was received in a letter to Mayor Holt, which is as follows:

24 Duncan Street,  
Edinburgh, Sept. 2, 1914.

Dear B. J.:  
I want a short note to let you know that I am now a trooper in the Scottish Horse, and expect to be sent to the front very soon. This letter, I believe, has asked for every available man, and I feel that it is my duty to go and do my little bit for the Empire. I have enlisted for three years or the termination of the war, so I cannot say when I will be back in Scotland. I am in a great hurry, so cheer up till we meet again.

Yours very sincerely,

A. B. CLOW.

While in Redcliff Mr. Clow was one of our best men, and a very efficient. His many friends here admire him for his loyalty, and all will earnestly pray for his safety, and to Redcliff with the rest of our brave lads.

## IRRIGATION CONGRESS AT CALGARY OCT. 8

No less than between thirty-five and forty districts in British Columbia, Alberta and Saskatchewan have indicated their intention of sending delegates to the exhibition in connection with the Irrigation Congress to be held in Calgary, October 8 to 9. The provinces of British Columbia and Alberta will send government delegates, and the Canadian Pacific Railway will compete with these for the government or corporation award at the exhibition. In addition there are numerous individual exhibitors, which altogether will make one of the best exhibitions ever held in Western Canada.

The exhibition committee now has sufficient entries to ensure that almost all the space allotted for this purpose in the exhibition building will be taken, and there are certain to be a number come in at the last moment. These numerous displays combined with the artistic drapery of the building will make it one of the most attractive events in Calgary during the congress.

Districts which have already indicated for space in this building are as follows: Penticton, B.C., Carstairs, Didsbury, Oia, Inland, Red Deer, Lethbridge, Wainwright, Arcus, Ste. Anne, Three Hills, Tremblay, Halden, Vail, Riley, Irma, Mirror, Teofid, Wainwright, Vegreville, Vermilion, and many others. The list of districts is as follows: Albert, Rossmore, Saskatoon, Regina, Swift Current, Moose Jaw, Medicine Hat, Hays, Grichen and Brathorne.

On Monday morning, October 5, the Duke of Cornwall, Governor-General of Canada, will touch a button in Ottawa, which will electrically connect with the flags and drapery at the convention hall. This will unfurl these flags and be the signal for the official opening. Lieutenant-Governor Borden will, in the name of the Governor-General of Canada, declare the congress open.

## DECISION IN WAR MUST BE FINAL

The declaration of London continues to be the subject of favorable comment in Petrograd. The Reichswehr is so sure that it shall have no personal associations or other side. The change in the map of Europe must be final and no nationality must be taken into account in the satisfaction of its legitimate claims. This idea is, however, irreconcilable with the existence of an empire like Austria-Hungary. It is also irreconcilable with the hegemony of Prussia in Germany.

Further, it is irreconcilable with the division of Poland and the treaty of Bucharest. The declaration of Italy, Germany, Roumania and Serbia must be completed. France must renege what has been taken from her and Bulgaria. A hundred years fight for the principle of nationality must finish with a decision free from all compromise and therefore final. The mess seem to have many advocates in this country.

## REDCLIFF LADIES DECIDE TO HOLD A TAG DAY

Ladies of the town to the number of about thirty met yesterday afternoon in the Presbyterian church for the purpose of discussing ways and means for raising funds for the relief of those in distress, both at home and on the battlefield.

At the meeting Miss Gilman acted as chairman, and Mrs. C. B. Rice as secretary.

After some discussion it was decided to hold a tag day on Tuesday, Sept. 22, and that the proceeds of the day be divided as follows: One-third to go to the Royal Red Cross Society to be used for the relief of wounded soldiers, and two-thirds to the Redcliff relief committee, to be used for the relief of the needy in town.

For the tag day canvass the town was divided into districts, and committees appointed to conduct same are as follows: For Arlington and as far south as Fourth avenue, Mrs. Nicholson and Miss Price; Lockwood and Phoenix, Mrs. Harris; South of Fourth avenue, Mrs. O. Howard and Miss Gilson; South end, Mrs. J. W. Wheeler and Mrs. Worts.

Mrs. Gordon and Mrs. Chadwick were appointed joint treasurers. "These will make a house to house canvass of the residential sections. There will also be a number of young ladies for the street work. These will be Miss Edith Broadfoot and Miss Elsie Clark. Suitable ribbon will be used for tagging purposes, but the ladies who are undertaking that branch.

While the donations to this fund are not limited, the ladies assure us that the smallest contributions will be as gratefully received as the big ones. "I trust our citizens will give the ladies every assistance possible in their work. They will have a lot of ground to cover, so that it can properly be said: 'Who gives promptly and cheerfully gives thrice.'"

In his givings on occasions of this kind one should also remember "Who gives himself with his aims feeds three, himself, his hungry neighbor, and me."

## Relief Committee Is Now Organized

A meeting composed of representatives from the different churches, and the town council met yesterday afternoon for the purpose of organizing a central relief committee to look after the needy in town this winter.

The committee appointed will consist of the minister and one other man from each church, the mayor and Councillors Ireland and McLaughlin. J. E. Askwith will be chairman of the committee.

While this charitable work will be in charge of this committee they will work in conjunction with and hope to have the assistance of the local organizations of the different churches.

Although there does not appear to be many needs in town at the present time, the move was taken so as to be prepared for any emergency which should arise.

The allied fleet of England, France and Japan are now the absolute mistress of the seas and commerce is going on as usual with all nations except Germany and Austria.

## MEMBERS OF IMPERIAL BRASS COMPANY HERE

**Make Change in Specifications to Comply With Conditions — Optimistic Over Future Outlook—Building to be One of Best in Western Canada**

Mr. F. McNellie, of the Imperial Brass Works, of Chicago, accompanied by Mr. G. G. Tobrall, of the same firm, arrived in town this morning to look over the ground and make the necessary preliminary arrangements which will work systematically to the construction of their new plant which they contemplate erecting here.

The plans and specifications for the plant were drawn up and prepared by one of the most eminent contracting and engineering firms in Chicago, but on arriving here the representatives of the above firm found many of the specifications called for were not necessary here owing to the difference in climate and other conditions.

As soon as the alterations in the specifications are made it is the intention of the company to proceed at once to advertise for tenders and let the contract for the construction of the plant.

The building is to be of reinforced concrete and brick, and is to be modern in every particular. It will be equipped with a water sprinkling system, and will be fireproof in case of fire, and when completed will be one of the most modern factory buildings in Western Canada.

It is expected that Mr. Thorndell will be manager of this factory when it is in operation.

To a representative of the Review Mr. McNellie stated that while the present crisis in Europe had interfered very noticeably with business operations all over the world, he felt that a great commercial era was about to dawn on the American continent, and he felt that the institutions which were in a position to take advantage of the situation when it was at the food would reap a great benefit. It was because of this fact his company was anxious to get the machinery in operation as soon as possible.

It was the intention of the company to start manufacturing machinery and plumbing fixtures here and although building operations were greatly retarded as present he was sure that the building of a new plant in a short time till Canada, and especially western Canada, would swing into a state of progress and development such as he had never experienced before.

## TAKES EXCEPTION TO REVIEW STATEMENT

Editor Redcliff Review.  
In a recent issue of the Review you made two mis-statements. I should like to correct.

Concerning the heading "Unions Advertising" you state that a fancy rate of advertising is charged. If you had taken the trouble to enquire you would have found that there is no charge for advertising in our paper.

Secondly, I will guarantee to say that fifty per cent. of the ranchers in the Province take the Review as a medium for advertising animals which are impounded, naturally I should like to see every rancher who has stock on the range would occasionally place through the Gazette when he receives it.

The sale was also advertised by placing notices in conspicuous places, knowing that this is the official medium for advertising animals which are impounded, naturally I should like to see every rancher who has stock on the range would occasionally place through the Gazette when he receives it.

The sale was also advertised by placing notices in conspicuous places, knowing that this is the official medium for advertising animals which are impounded, naturally I should like to see every rancher who has stock on the range would occasionally place through the Gazette when he receives it.

Trusting I have not taken up too much of your valuable time and space, I remain,  
Yours truly,  
F. H. GOURTNEAU.

The above communication does not alter our opinion in the least regarding the Imperial Brass Works.

ing the main argument in our editorial of complaint, viz., that the Gazette is of absolutely no value as the only advertising medium for certain kinds of advertisements as stated in our article of the 17th inst. The fact that the Gazette for the sale of impounded cattle are free as stated above, we must correct, but that does not alter the fact that comparatively few see it, or that a twenty-five cent ad. in the nearest local paper would do more good than a thousand free ads. in the Gazette."

So far as the notice stuck up on the walls of the post office is concerned—that's a joke—Ed.

## Work Started On New Royal Bank Building

The excavation work for the new Royal Bank building commenced this morning. Messrs. Congreve and Lee have the contract for excavation. Teams and men have been at work all day, and already they have quite a hole dug.

## HOW CANADA CAN HELP IN THE WAR

The members of the Corn Exchange of Liverpool have sent a message to Canada pointing out the urgent need for wheat in the acreage sown next season. They say that the calling out of almost twenty million men for war will greatly lessen the crop of cereals in Europe, and that Canadian farmers can help the Empire with profit to themselves by increasing the acreage here. It must be remembered that over large areas in Europe wheat is sown in the autumn as it is in Ontario and parts of Alberta, and even were the war delayed a few weeks there would be no possibility of securing the usual acreage of winter wheat.

Byronial estimates that during the present crop year in addition to a harvest that has not been greatly lessened by the outbreak of war, Germany and Austria will need to import 230,000,000 bushels of wheat, corn, barley and oats, and that the war continues these imports will hardly be procurable. The Allies will need 400,000,000 bushels of wheat. Great Britain, France and Belgium are importers of foodstuffs, while Russia is an exporter. The grain supplies for the Allies this season will be fairly well assured, because they hold the seas and can draw not only from Canada and the United States, but also from Australia, India, and the Argentine.

It should not be scarce or especially dear in Britain during the coming winter, but there is a possibility that it may be so all over the world during the winter of 1915-16. The countries like Canada set to work vigorously to make good the inevitable shortage in Europe following the greatest withdrawal of agriculturists from their occupations that the world has ever known.

It is this outlook, this fear that famine will follow upon the heels of war, which has caused the Liverpool merchants to make their plan to the farmers of Canada to sow more wheat.

## CANADA SUPPLYING FOUR THE ARMY.

Hon. Robert Rogers, chairman of the purchasing committee for supplies for the British government, has ordered a large contract to be made with the Imperial army. At the beginning of the war he purchased 700,000 bushels of wheat. These have all been shipped. On Thursday from the Grain Growers' Co. he purchased 500,000 bushels of 200 cars, which will be mostly from this year's crop and will be all from the west. They will be shipped at once and other purchases will follow.

## A FINE LOAD OF VEGETABLES.

The fine load of green vegetables which A. E. Smith brings to town every week serves as another proof of the work in this district in connection with raising when prosperity is hampered. They are as fine a lot of vegetables as can be found anywhere in the world and are going soon.

## GERMANS DEFEATED IN NORTH AFRICA

London, Sept. 15.—A dispatch to Reuters says that the Fourth South African Mounted Rifles, commanded by Col. Deaton, after two night marches surprised the German force which had occupied a drift fifty miles from Redoubt in the Nammas Land. After a sharp skirmish the Germans were compelled to surrender.

## SECOND GLASS PLANT TO BE BUILT THIS FALL

**Will Manufacture Plate and Other Window Glass—Will Be First of Its Kind in Canada—Building to be Largest in Town and Plant Equipped With Most Modern Machinery.**

Notwithstanding the depression through which the country has been passing during the past eighteen months, Redcliff, as the Review has often stated, has every indication of being among the first to emerge from the difficulty.

This week we are delighted to be able to announce that one of the first industries of its kind in Canada is about to be established in Redcliff.

This is the new plate glass factory which has been contemplating building here for the past several months.

Today the Review had an interview with Mr. Geo. Lydiate, manager of the present glass factory here, and he assures us that his company has been decided to build a plant here which will be located near the old plate and other window glass.

The building for the new plant will be much larger than the present glass factory already established here, and will be equipped with the largest and most modern glass blowing machinery on the continent.

In the past the goods which the new plant are now being prepared, and the men at the head of the new plant are now being prepared, and the men at the head of the new plant are now being prepared.

We are assured by Mr. Lydiate that plans and specifications for this new plant are now being prepared, and that work on the construction will be commenced within four weeks.

The plant will be located near the old plate and other window glass, and will be one of the largest and most modern in the province.

The construction work will employ a large staff of men during the fall, as soon as the building is completed, and that they will be installed on the manufacture of all kinds of window glass will be proceeded with.

## Big Attraction At Maple Hall

The management of Maple Hall have made arrangements to have one of the most popular films of the season, "Victoria, Sixty Years a Queen," on Wednesday afternoon and evening next.

Here is history, too, show so carefully in detail that the spectators are glad that they recognize Lord Salisbury, William Ewart Gladstone and other famous statesmen, Victoria, too, played by the greatest actress as the three great periods of her reign. This seems to be the real Victoria, that she is recognized by the Britons in the crowd is shown by the quick applause.

The film is of St. Paul's and Westminster Abbey are so well done that one is at first tempted to believe that the pictures had been staged at the actual buildings.

The photo spectacle comes in real life in such striking points in Victoria's reign as the Indian Mutiny, Gordon's fall at Khartoum and the defence of Ladysmith in the Boer war—an educational film that tells its story in an interesting manner and will find it highly interesting.

Ottawa, Sept. 15.—The hundred Red Cross nurses who are to accompany the Canadian expeditionary force will be selected and they will be ordered to Valparaiso at the end of the week. There were not less than six hundred applications from young women from all parts of Canada and the United States for positions as Red Cross nurses. Forty of these have been accepted.

"Give me!" said the paper  
he asked.  
"Hold up to you," replied  
"ar."  
"ling" murmured the  
ag

with

## CHARITY BEGINS AT HOME

We understand an appeal is being made to the women of Alberta as well as all the other provinces of the Dominion for different articles which will add to the convenience and comfort of the soldiers in training and on the battlefield.

This is a most worthy undertaking and is being liberally responded to by our women from one end of the country to the other. In this movement Redcliff has not been found wanting. We are informed that the ladies' organizations in connection with the different churches are holding regular sewing circles, and will send in their contribution. While nothing but praise is due to our women for their interest in this work they should not allow it to interfere with the work which they may be called upon to do this winter for those unfortunate around our own doors. There is no reason why it should. When they have finished their work for the soldiers the sewing circles may be continued, and by working in conjunction with the relief committee which is to be formed could be kept in touch with those children who will be in need of winter clothing, and that they may be kept at school.

This will, we are told, be the first winter since the town started that there will be a demand to any extent for charitable work, and it is just as much the duty of those who can help in this work as it is to help fight the battles of the Empire. This will be one of her battles this winter.

## HAVE YOUR OWN GARDEN

The great success in growing vegetables and other garden stuffs achieved by A. E. Smith and others in this district, shows what can be accomplished and ought to be an inducement for private families to go in for gardens on their plots.

If the people in town who have the waterworks in their property, would all put in a little garden in their back yard or get permission to use some of the vacant lots in town for that purpose, there would be less cause for the great cry of "high cost of living."

If all the breadwinners in town who are out of employment at the present time had taken the precaution to plant a little garden last spring, there would not have been the stinging and worrying now that we are on the threshold of what promises to be a hard winter.

Out here in the west we often hear people say they don't see how people in the east with families can get on on their small salaries. They do get along, nevertheless, and at the end of the year, besides having had a good living are very often better off than some of their higher-salaried western friends. One reason for this is that almost every man with a family in the eastern provinces has his garden. From which he keeps his table well supplied during the summer, and stores away enough to see him well through the winter.

Last spring several towns and cities throughout the west encouraged the vacant lot garden plot scheme, and this fall they are reaping a very noticeable benefit.

Welcome as would have been these garden plots in Redcliff this fall, there is no doubt that, according to present indications, they will be much more

welcome and useful in the fall of 1915.

Owing to the present European trouble Great Britain is looking to her colonies to supply her with food stuffs, and the greatest demand for these is not the present, but will undoubtedly be next year, as there will be a big decrease in crop acreage in all European countries.

It all who can would grow their own garden stuffs next year they would be performing a duty to the Empire in the present crisis. The more there is grown in this way the more there will be for export to the motherland, which will need all she can get.

We would suggest that any who intend going in for gardening next spring start now to prepare by setting the land plowed up and harrowed while times are slack, so as to be in good shape for making an early start in the spring.

## WILL STAND COMPARISON

Count Von Bernstorff, German Ambassador to the States, is horrified at he thought that colored African and Indian troops should be fighting on the side of the Allies. The Count's sensitive feelings are lacerated at the mere suggestion of the magnificent German public mind being opposed at the front by dusky-skinned warriors, who are all civil civilized.

The Count's indignation is the amusing incident of the day that will be better appreciated by the American public when the Belgian committee arrive at Washington to protest to President Wilson against the German atrocities in Belgium cities. The African and Indian troops may be a bit shady of skin, but under that skin are white, human hearts that would not allow the owners to be guilty of such murderous atrocities as the German soldiers practised upon the poor innocent inhabitants of the beautiful and historical Louvain.

The British Indians and the French Africans are brave fighters, but they fight fairly, as their histories show. Count Bernstorff will have a chance to compare their methods with those of the German invaders, when the committee of protest reports to the President, as head of a neutral nation.

## RE COMMUNICATIONS

While we are always glad to publish communications in this paper, and as a matter of fact encourage it, so long as the writers confine themselves to the discussion of questions which are in the interest of the town or district, yet we reserve the right to say what shall or shall not be published.

Some people seem to have a very wrong impression of the rights and duty of a newspaper in this respect. Judging from some communications we have received in the past there are some who think the paper is the medium through which their family rows, personal spite or personal ambition should be aired.

In most of these cases the writers expect the paper to do their dirty work and to say in print what they themselves have not the nerve to say in public. If the paper, knowing its limitations and the extent to which the libel law will allow it to go, refuses to publish these communications, the writers think we are not giving them a square deal. They lose sight of the fact that the paper and its proprietor are equally responsible with the writer for all articles that appear in its columns, and that libel suits, even though the paper should be wrong, are costly and troublesome affairs. If a paper published all the communications it receives its editor would be in jail half the time and the other half would have to take the back lanes to and

from his meals, and carry a six-shooter in each pocket.

As we said before we are always glad to receive and publish communications which do not in a fair and unbiased way with any questions of public interest, provided always that the writer signs his full name, not necessarily always for publication, but simply as a guarantee of good faith. Under no condition will be publish letters dealing with personal spite or party quarrels.

We have been asked by several probable shooters in town where they can procure a shooter's license, but so far as we know there is no place in town where such a license is available. The surprise is an oversight on the part of the government, as a town of the size and importance of Redcliff surely should have some place where these licenses can be purchased. Besides being a great convenience for our sportsmen we think the government would take in a few extra dollars by having an agent here.

We now see the reason of the extraordinary big rash of the German army as far as the river a few miles from Paris. It was not with any intention of taking Paris, but we believe their only intention was to wash their feet so that they may be able to show a clean pair of heels to the BLASTED BRITISH donkeyhoe.

It has at last been discovered why the German helmets are made to hang down the back of the head instead of recognized nations. And we must give BILL credit for it. He knew what was coming and wanted to make sure that his Uhlans did not get it in the neck too severely when the Allies met them.

The numerous Union Jacks now floating over the stores and public buildings of our town has been the cause of much favorable comment by strangers.

Emperor William will never be the Napoleon we thought he was going to be, but before long his soldiers will be starved down to the bone-pate.

## OUR POETS' CORNER

We have received the two following poems, written by Miss Agnes Doris Pratt, a young lady who only a few weeks ago came from the States to Redcliff to reside. The sentiment expressed in the verses clearly shows that even the young hearts of this continent have the true ring of loyalty and love for the British arms in this their hour of trouble.

A BETTER DAY DATING.  
The days have lost their splendor,  
They are rainy now and dull;  
Forever will we remember,  
The hour you left good-bye to all.

The clouds are not so bright,  
They are gray instead of blue;  
And the clouds on many a day and night,  
Of the past, have wept for you.

In the dawn, a misty morning,  
Hides the sun and his cheery rays,  
Then the sun, we know for certain,  
Carries tears these darkened days.

And the moon is shaded partly,  
By some tiny bit of cloud,  
Still the white glow just as sharply,  
Whistling 'round the corners loud.

But the day is purely hearing,  
Man cannot go on as he was,  
Jesus always is in hearing,  
He can always hear us pray.

Yes the time is surely coming,  
When their armies now is war,  
Will cease all this hate and fighting,  
And say, "Kiss, what are we fighting for."

For the Germans have a Jesus,  
They are men, have good and true;  
And the One who always lives from  
From our wrongs, will bless them, too.

For 'tis not love that on this day  
The peasant stands and kills;  
'Tis a fear toward the beautiful  
Who rules the German hills.

—A. D. P.

AN ODE TO THE SOLDIERS.  
Blessings on the noble men,  
God protect both theirs and them;  
Speed them on with guiding hand,  
Where they will serve the Motherland.  
Then bring them back to where we  
are.  
Waiting and watching, for their call  
hark!  
But not until their duty's done.  
If it takes the last of England's sons  
For aught but us and Britain they  
are.  
And just for her they willingly give  
their lives so Britain's name  
shall never carry the name of shame.  
—A. D. P.

R. Wray tells us of a peculiar happening in the dog world this last week. He says that a friend of his had a litter of German Otter hound puppies added to his kennel and now every one of them has turned out to be British bulldogs. He says there is no need to wonder about it, they have had their eyes opened the last few days.

For Loss of Hair  
We will pay for what you use if  
Removal of your hair does not  
promote the growth of your hair.

In all our experience with hair  
treatment, we have found that  
the only way to get a new growth of hair  
is to use our hair tonic. We have seen  
countless men who have lost their hair  
and we will pay for what you use if  
Removal of your hair does not  
promote the growth of your hair.

If Remedy "H" does not  
remove dandruff, relieve itching  
scalp, stop the hair from falling  
and promote a new growth of hair,  
then we will pay for what you use if  
Removal of your hair does not  
promote the growth of your hair.

## MADE GOOD MONEY. IN MIXED FARMING

Now a Settler, Near Prince Albert  
Has Increased His Capital Twelve,  
Times in Six Year

"The Canadian Countryman" reprints a letter from the "Southern Farmer," which was written by an old countryman who settled in the Prince Albert district in the fall of 1908 with about \$400 in his possession.

"I was fortunate enough," said the farmer in question, "to secure a good quarter section, and after three years residence my small capital has increased to about \$5,000 in land, buildings, stock, and implements. This is just one among a multitude of other successes.

The country around is virtually a poor man's paradise, as the poor man is able to become comparatively rich, or the rich man richer. If I had possessed \$2,000 when I came, instead of \$400, I could have been worth \$12,500 now.

"What makes this district so desirable for settlers is that it is adapted to mixed farming, which is really the only kind of farming that can be depended upon as a permanent source of revenue. The country's best advertisement is manifested in those who sell their holdings at a low price and leave here for some imaginary 'glorious fields,' far off that they find are only a mirage when they get there. The advertising part is seen when such people return here and have to begin again, bewailing all the time their loss through leaving here and abandoning their wasted years of toil.

There are some people who very easily become discouraged and fail. The country cannot, of course, please that sort of person, who is not able to look away when he comes to seek a life of ease and luxury. What Prince Albert and the surrounding district needs is capital to establish 'home industries' and develop the vast resources of the country, and men with willing hands and the heart to do the cutting, rearing, and raising of thousands of homesteaders.

The writer of this letter, Mr. W. W. Carter, appreciates the fact that the farmers' best market is the home market. Only by the building up of industrial enterprises in the surrounding centres in the West will the Western country secure that well-rounded development which is essential to a broad measure of success, and which will enable it to avoid the problems of unemployment which most Western communities have had to contend with. Two or three factories in a town can absorb in the winter time most of the floating population, which is busy on the farms in the surrounding district in the summer time. Thus do farm and factory work together to mutual advantage.

### HOW TO FEED FACTORIES

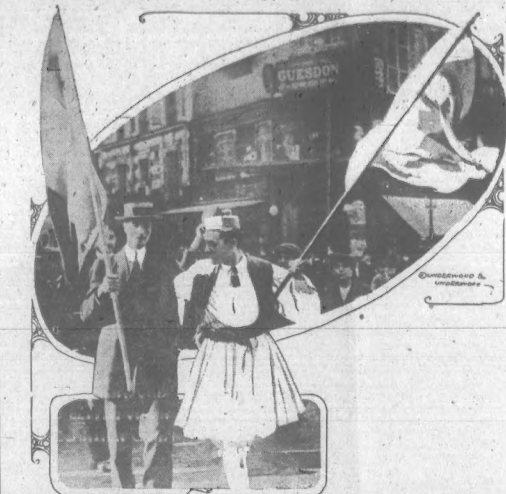

Mixed Farming Development Near Edmonton Increases Profitable Food Supplies

In reviewing the annual address of President Cooper of the Edmonton Board of Trade, the "Montreal Times" calls attention to the fact that Edmonton has a splendid territory as that its factories, warehouses and railroads, are sure of having good business.

Dealing with suggestions that more active efforts should be made to encourage new industries to come to the city, Mr. Cooper said first he would like to see the "mixed" factories and industrial enterprises already there, operating to full capacity and increasing that capacity; a practical suggestion. To double the output of existing factories is preferable to doubling the number of industries. He felt that work such as that done by the Central Alberta Development League, designed to promote agricultural development in the tributary territory, should be vigorously continued, and the attention of outside agriculturists drawn to every possible way to the fact that between the Red Deer and the Athabasca rivers lies probably the best mixed farming country on the continent, and that there is today, and as far as the future as one can see, a ready market at high prices for almost unlimited amounts of all classes of farm products other than grain. At present it is estimated that less than five per cent. of the good, tillable land in the rich territory referred to is in use. To increase the production of the surrounding land in the nearest way to increase the output of Edmonton factories. That is a principle which Toronto and other Ontario cities may have to recognize in regard to Northern Ontario.

A sound agricultural development, which will provide adequate food supplies for a comparatively situated urban population, is the best foundation for the industrial development which the nation and other cities will experience in the next few years under existing local conditions.

## IN PARIS AFTER WAR WAS DECLARED

Frenchmen with Serbian in national dress, each carrying the flag of his country, marching down crowded boulevard.

## A SUITABLE PRAYER FOR THE NATION

The following prayer was offered by the Rev. G. L. Gordon at the national prayer meeting held in the Empress theatre last week. We have been asked by several to print it so that it may be used during the present crisis:

For Those in Authority  
Jehovah of hosts, the only Creator and the ruler of the whole universe, ruler of kings and Lord of lords, the source of all power and dominion in heaven and earth, most heartily do we beseech Thee to give Thy grace and wisdom unto the British king, and unto all in authority under our king and over us. Give them the spirit of truth, wisdom and steadfastness. Let the power of God rule in their hearts so that, keeping their covenant with Thee, they may uphold righteousness and peace, and law and order and justice may be observed, and graft and gambling in public and private, and every form of corruption may be swept from the land.

For the Nation  
Almighty God, the God of our fathers, who sitest on the throne of righteousness, judge now between our nation and those who have risen up against us. Stir up Thy strength, O Lord Omnipotent, and come and fight for us. For Thou seest that our cause is just and in Thee alone do we put our confidence. We know that he that is not to the strong nor the race to the swift. No king is saved by the multitude of his armies, and no mighty man is delivered by much strength. In Thee alone is deliverance to Thee, beloved righteousness. Show Thy great might, O Christ, in saving those who confide in Thee.

Have regard, our Father in heaven, to the causes of our entering upon this war. We are fighting for the liberties of Europe and for the freedom of 'three small nationalities' which were threatened with overthrow by a people great and strong. We are also fighting for the principle of the sacred maintenance of treaty obligations. 'Thou hast taught us to believe in the might of justice and of the righted word, and the British sword is unsheathed to maintain these. As Thou wert with our fathers, so we trust Thy thought, for nations and civil liberty, so be graciously pleased to cause freedom and justice and faithfulness to 'sighted obligations' again to carry off the victory.

For the Army and Navy  
Good and gracious Father, remember in Thy mercy at this time of war and peril, our brethren the officers and men of the British Army, and Navy. Grant them courage, wisdom and withal a Christian spirit in the performance of every duty and in the presence of every danger. Make them a defence to the whole Empire which Thou hast been pleased to make so great. Grant to us the the ability to that still in our unity as an Empire, having 'one life, one flag, one fleet, one throne,' we may, as faithful and true servants among the nations, carry 'the white man's burden,' and make Thy salvation known to all.

For the Wounded  
O Lord God of infinite compassion,

look in mercy on those who are exposed to danger, conflict, sickness and death. Be control the activities of the warring armies that as little cruelty and suffering as possible shall be inflicted. Bring Thy comfort unto the prisoners; relieve the distress of those who suffer. Grant Thy grace unto the dying, so that in peace with Thee they may pass unto the faithful soldier's reward. To the many wounded ones who lie in hospitals, disappointed in their inactivity and lonely for far distant friends, come with Thy cheer, O Holy Spirit of God, and use their hours of painful solace for the betterment of their lives. When those in prison or in hospital are lonely, desolate or afraid enable them to trust in Thee and so find Friend, Refuge and Deliverer. Restore to health and useful toil those who yet can work for Thee; and to all give patience and hearty resignation to Thy will.

For Widows and Orphans  
Elevating God, the Comfort of the sad and the Support of the weak and suffering, be Thou the confidence and help of all those who suffer because of the greatest grievous war. Have pity on the many widows and orphans who have lost their loved ones and those who want their human support. Send them guidance and success, and supply by Thine own presence and love that which they have lost by cruel war, the love and guidance and support of husband and father. May it please Thee to show unto them Thy fatherly kindness, and may their sorrow and distress cause their hearts to turn to Thee for deliverance from their trouble and for consolation of their griefs.

For Physicians and Nurses  
Eternal Father, the Source of all life, let it please Thee to incline the hearts of physicians and nurses to volunteer for the service of the suffering in the present war. Strengthen Thy servants of the Red Cross Society in their holy purpose of ministering to the wounded and dying. Protect their sign from the weapons of cruel and ungodly persons. Help them in the great and dangerous work they have undertaken for the name, and use them for the comfort of the living and the consolation of the dying. Grant wisdom, skill, peace, patience and Christian grace to physicians, surgeons and nurses, both on the battlefield at home and abroad, so that all human means may be rightly used for the comfort and recovery of the wounded; and add Thine own strength to their labors.

For Peace  
Restore, O Prince of Peace, Saviour of the world to us and to our adversaries the blessings of peace. Thou God of battles, make wars to cease again unto the ends of the earth. Rule the kings and governments of earth so that the causes and occasions of wars may be removed. Overrule all events of war and peace for the welfare of the nations, the extensions of Thy kingdom and the larger manifestation of Thy name and glory. All these and all other needed blessings we ask at Thy hand, the merciful and wisely ruler of all, in the name and for the sake of Jesus our holy Lord and Redeemer, to whom with Father and Holy Spirit we ascribe all power, kingdom and glory forever. Amen.

### WHAT TO LEARN.

There are five things in life which we ought to learn. Here they are:

1. Learn to laugh. A good laugh is better than medicine.
2. Learn how to tell a helpful story. A well-told story is as welcome as a sunbeam in a sick-room.
3. Learn to keep your troubles to yourself. The world is too busy to linger over your life and sorrows.
4. Learn to stop croaking. If you cannot see any good in this world, keep the bad to yourself.
5. Learn to greet your friends with a smile. They carry too much frowns in their own hearts to be bothered with any of yours.

## ITEMS OF LOCAL INTEREST.

Will the party who took the stable fork from W. B. Watt's stable please return it and save further trouble.

Mrs. J. W. Anderson returned to Redcliff this week, after spending several weeks with her brother at Wilkie, Sask.

As there is a number of enthusiasts of the stables and beam in town there is some talk of having a cycling rink here this winter.

Notices have been received by the members of the legislature calling them to meet in the regular annual session at Edmonton on Wednesday, Oct. 7th.

W. T. Lockwood has moved his office to the new Lockwood block on Broadway. The new offices are fine, bright, airy, and are fitted up in elegant style.

Turkey is seriously considering getting into the war. If it lasts long enough the allied forces should have a good slice of their roasts for their Christmas dinner.

While on a scouting expedition in search of some duck along the river, C. S. Rice ran across two rattlesnakes. He killed both of them and took eight rattlers off each of them.

R. M. West, at one time of The Review staff, has purchased a half interest in a printing business in Winnipeg, and he with Mrs. West have moved to that city to reside.

The fine display of fall and winter millinery now on display at Miss Leaver's parlors, is attracting crowds every day. The fine assortment now in stock is a credit to the town.

Some of the Calgary papers are advocating the establishment of a town farm for that city, to be run along lines similar to that suggested in The Review a few weeks ago. Mr. Redcliff.

The Redcliff Livestock putting on a bus line to run from the Redcliff hotel to the shoe factory to carry the employees of the factory to and from work. The service will be started at once.

The province of Alberta has 2,600 men now in camp at Valcartier. This certainly is a good showing for Alberta. It is more men per population than any other province in the Dominion.

A social evening is to be given by the ladies of the Church of England Women's Auxiliary, Thursday, September 24th, at the ladies hall. A hearty invitation is extended to all. Admission free.

Since green corn has been coming to town in greater quantities lately, corn barbecues are quite the rage among our bachelor boys. Who had ears to sell should visit some of the bachelor's quarters.

Messrs. Watson, Leander and Goods, who have the contract for the new Royal bank building, were in town on Monday to lay out the lot preparatory to starting the excavating. This will be started at once.

Little Johnny Osborne has returned to town after making his pile in the oil business in Calgary. He says he doesn't see how anybody can help making money with all the opportunities in this western country.

If more manufacturers and merchants would only be bold enough to take the public into their confidence and tell what they think, what they have to sell, they would do very much more business in this district.

The Germans have mountain bitters canary owned by the Overland store has died during the past week. And no wonder he at last found out the truth about the German victories and died rather than be pointed out as a kisser of hills.

The Alberta government has already shipped 200,000 bushels of oats to the Imperial government. These are all the old oats available. The balance of the 100,000 bushels will be new oats and will not see as soon as they are threshed.

Helen Bauer, a pretty young German girl of the Josephine district, was married last week to Hans Schweibach, also a German. A few days after the wedding Hans disappeared and the young wife fears he is gone to the war.

J. W. King, who has been conducting a restaurant on Second street south, intends moving up to the Club, previously occupied by the No. 2 Club, on the 10th street. He expects to open up in the new stand about the first of next month.

In a letter from Geo. Lynch, who is now with the troops at Valcartier, he states he has been kept busy lately breaking horses for saddle and transport work. George will be right at home at this work, as he has broken many a western bucking broncho.

The regular meeting of the School Board did not materialize last Friday evening, as there was no quorum. One of the board who were on hand paid a visit to the council, which was in session, in order to get a few pointers on how to finance in hard times.

We understand that owing to his long and continuous absence from the council board, Councillor Flath forfeits his seat. He is now residing in Calgary with his family. The vacancy, we are informed, will not be filled till the general election at the end of the year.

An association is being formed in Calgary to be known as the M.I.C. association. This stands for Made in Calgary. They should get a step farther and call it the Made in Calgary Club. With a good Irish name like M.I.C. they would then be in the kitchen, Roberts, Callaghan, French, class.

Mrs. Duncan, formerly of the Northern hotel, has rented the dining room in connection with the American hotel, Medicine Hat, and takes possession at once. While her friends in Redcliff are sorry to lose her, they wish Mrs. Duncan every success in her new venture.

Last week's social announcement was in error in regard to the Rebekah social being in aid of the Odd-fellows. It is just a social event to celebrate the first anniversary of the Rebekahs, to which the Oddfellows are cordially invited, each one being entitled to bring a guest.

The new flag was hoisted over the city hall last Friday evening with all the usual accompanying such as a ceremony. The flag was unfurled to the tune of "Rule Britannia," sung by the city hall staff. Chief Reynolds acted as choir leader, and otherwise supervised the ceremony in the absence of Mayor Bots.

The Manitoba legislature will introduce a measure which provides that no proceedings may be taken for the sale of any land (meaning all real property) in default of payment in respect of mortgage or agreement of purchase if not satisfied with the sale after August 1, 1914, until after the lapse of six months after that date.

Teams are again busy on the streets leveling them up after the rains of the past few weeks. The drags are being good work and are putting the streets in good shape again. It would be a good idea if the two town councils would arrange to have these drags taken over the road between the flat and Redcliff after each rain.

J. L. Landis, who has been in Red Deer for the past few weeks, returned to Redcliff last Friday. Mr. Landis has been in Red Deer in connection with the preliminary work of the Pioneer Oil Co., which intends drilling for oil at that point. He informs us that the derrick is now erected and machinery is being installed, and that the company will start drilling operations as soon as possible.

Rev. H. C. B. Gibson, of this town, has received word to the effect that his brother, who has been connected with the British army for a number of years, is still at his post. Prior to the outbreak of the war he was Lieut.-commander on one of the boats in connection with the hydrographic department, but as soon as war was declared he was transferred to one of the big battleships. It is not known what boat he is on, but his last heard from in a message to his wife in Tasmania. Mr. Gibson has seven other relatives at present at the front.

Blake Cook, the popular traveler for the Frederick Stearns Drug Co. of Windsor, Ont., was in town yesterday on business for his company. While in town Mr. Cook was shown around through our different industries by druggist Philip Gaudin, who himself is greatly surprised at the progress the town has made. Owing to present conditions in Europe when commerce is so seriously interfered with, Mr. Cook thinks the time is now opportune for manufacturing centres like Redcliff to get busy and try to get industries here for the manufacture of goods which Canada has previously been importing from the Empire's enemies in the present struggle. With our cheap fuel and geographical position, Mr. Cook thinks there is no place in Canada better suited for the establishment of such industries than Redcliff.

## CHURCH NOTICES

**THE PRESBYTERIAN CHURCH**  
Who may become a member of this church? Yes, if you accept Jesus as your Saviour and promise to love and serve Him. You do not have to subscribe to the distinctive doctrines of the church. Now is a good time to join. The Holy Communion will be administered on the first Sabbath of October.

"James: be a history and a prayer," will be Mr. Gordon's subject in the church next Sabbath at eleven forenoon. In the evening the Rebekah lodge will parade to the Empress theatre, where service will begin at 7.30. The sermon will treat of "Woman in War and Peace." All are welcome to these services; and the circumstances of the times ought to constrain everybody to attend worship in some church.

Sabbath School is at ten o'clock forenoon. All the pupils are called to be present in preparation for Rally Day, which comes next week. Prayer service on Wednesday at eight o'clock evening. On Thursday, the Ladies' Aid meets at three afternoon; all the members kindly attend; and the choir at 8 p.m.

**CHURCH OF ENGLAND**  
Friday, special Intercession Service for War, 7.30; followed by Choir Practice.  
Sunday next: Holy Communion, 8. Matins, 11. Sunday School, 2.30. Northwest Sunday School, 2.30. Evensong, 7.30.  
On Wednesday and Fridays at 7.30 a service and special prayers will be

offered during this time of War on behalf of our Empire and on behalf of our forces and those of the allies. While the world calls to war the church calls to earnest prayer for peace. All earnest Christians are invited to come and share these services, especially on Friday evenings. "More things are wrought by prayer than the world dreams of." All services are held in the Parish Hall, on the corner of Fifth street and Fifth avenue.

W. A. meets every Wednesday at 2.30 in the Parish Hall.  
All services and meetings are held in the Parish Hall on the corner of 5th street and 5th avenue.

**HAPPYEST CHURCH**  
Services in Reid's Hall.  
Morning worship, 11 o'clock. Subject: "A Living Sacrifice."  
Sunday School at 10 o'clock. All of the boys and girls are urged to be present at this session of the school, as preparations for Rally Day are to be made at this time.  
Evening Worship, 7.30 o'clock. Subject: "Was God a Part in the Present War?"

The pastor has no intention of making this a spectacular or sensational subject, but will endeavor to present an answer to this question that has been troubling so many thoughtful minds during these past few weeks.  
Last Sunday the Rev. C. C. McLaughlin was with the church. In the evening he preached on the subject of Friendship, and all who braved the stormy weather to hear him felt well repaid.

Do not forget the mid-week service next Tuesday evening. A hearty welcome awaits you at all of the services.

**THE UNION BIBLE CLASS**  
This is the only un denominational religious meeting in town, and meets in the Presbyterian church at 3.00 on Sabbath afternoons. You are invited to attend. The meeting will take the form of a service of song, intermingled with solo and quartette. You will enjoy it. Bring your friend along. Observe it is at three o'clock.  
Berlin, via Copenhagen, Sept. 15.—It is officially announced that on the morning of Sept. 15 the small cruiser which was sunk by a torpedo from a British submarine. Nearly all the crew was saved.

## Horse Shoeing
